**Wyckoff's Signature Canvas Bag** is a program sponsored by the WEC to encourage the use of reusable bag options and to *use fewer plastic bags*.

**Did you know**, plastic will only start degrading after **700 years** and will only fully degrade in **1000 years**. This means that all the plastic that has ever been produced has not degraded yet, and while it may degrade, plastic never goes away. It only breaks down into smaller and smaller pieces and finally into droplets of petroleum.
